

SleepSchedule.in — Solo SEO Growth Plan

Goal: Rank SleepSchedule.in in top search results and grow to 10k–100k monthly organic visitors as a solo founder.

Phase 1 (Week 1): Technical SEO Foundation

- Setup Google Search Console, Analytics, Bing Webmaster
- Submit sitemap.xml and robots.txt
- Ensure mobile performance >90 and load speed <2 sec
- Fix titles, meta descriptions, canonical tags

Phase 2 (Week 2–4): Content Moat

Publish 20–30 pages targeting long-tail keywords:

- what time should I sleep if I wake at 6am
- bedtime calculator
- sleep cycle calculator
- nap calculator
- sleep calculator for students

Phase 3 (Month 2): Programmatic SEO

Generate scalable pages:

- /sleep-calculator/6am-wakeup
- /sleep-calculator/7am-wakeup
- /sleep-calculator/8am-wakeup

Also create category pages by age, profession, and lifestyle.

Phase 4 (Month 2–3): Backlinks

- Submit to Product Hunt, IndieHackers, tool directories
- Answer questions on Reddit and Quora
- Reach health blogs for guest posting

Target: 10 quality backlinks/month

Content Strategy

Weekly:

- 3 blog posts
- 1 new calculator/tool
- 2 backlinks

Examples:

- Sleep debt calculator
- Jet lag calculator
- Caffeine cutoff calculator

Revenue

Monetization:

- AdSense
- Affiliate products (mattress, supplements, sleep trackers)

Expected:

10k visitors/month → ■20k–■80k

100k visitors/month → ■2L+
